

The following is a statement of works successfully executed by DNK & Associates:

Employer, contact person and telephone number.	Description of contract	Value of Contracted Works (Contract Value)	Date Completed
Programme Management Office Contact person: Mr. G. Dintwa Tel No: 365 6600	<p>Maun Water and Sanitation Upgrade Phase II (In Joint Venture with Haas)</p> <p>The project entails upgrading of the water supply and sanitation schemes to cover the whole of the Maun Buildable area. DNK is the project consultant and is undertaking the project in Joint Venture with Haas Consult. The consultancy services include conceptual design, tender documentation, tender management and construction supervision.</p> <p>The project entails wellfield assessment and connection, potable water treatment plant, bulk water transmission mains and village reticulation. The total potable water pipe length is roughly 630km. It also includes sewerage flows, sewer reticulation (gravity and vacuum) and wastewater treatment works.</p> <p>The project is being let out as a design and build and has been broken down into four different contracts, each with its own tender documents and tender management process. Currently, only one Contract has been let out.</p>	Approx. BWP 3 Billion	Ongoing
G. North Cell Cluster 101 Contact person: Mr G. Kombani Tel No:	<p>Gaborone North Cell 101 Water Reticulation Project</p> <p>The project objective is to provide a detailed design for the water reticulation to Cell 101 in Gaborone North. DNK and Associates are the project design consultant tasked with the detailed design including demand assessment, preliminary design, detailed design of 7km of pipeline and tender documentation.</p> <p>The project is undertaken as per the WUC standards and approvals are through WUC to allow for adoption of the scheme once completed</p>	BWP 1.2 Million	Completed
Botswana International University of Science and Technology Contact person: Mr Mphengula Tel No: 490 0117	<p>BIUST Student Hostels and Wardens Residence</p> <p>DNK & Associates is the civil and structural engineer on the project and has carried out the bulk earthworks including coming up with innovative solutions to minimise the amount of blasting in the already built up environment adjacent to existing hostels and staff residences.</p> <p>The civil design comprised potable water & firefighting, sewer reticulation, roads and stormwater drainage. The structural design entailed design of foundations, concrete specifications, load bearing walls and architectural entrance canopies as well as shading devices for student hostels and two wardens' residences. The total potable water pipe length is approximately 1.1 km</p> <p>The project is currently in construction phase with DNK& Associates providing site supervision through a Resident Engineer and head office support.</p>	BWP 96 Million	Completed
Programme Management Office Contact Person: Mr Basinyi Tel No: 365 6600	<p>Molepolole Sanitation project</p> <p>The projects objective is to provide a sanitation schemes that covers the entire Molepolole. DNK& Associates are the project consultant in Joint Venture with Haas Consult. The design consultancy includes a review of the design that was carried out by another consultant, design modifications, tender documentation and tender management. The project also includes design of wastewater treatment plant. DNK and Associates will supervise the construction works and defects liability after construction contract award. Currently, the design modification is awaiting the issue of a detailed topographical survey which the Client (PMO) is sourcing separately.</p>	BWP 1.6 Billion	Ongoing
